SUPPLYING MONEY

New York Borrowing Large Sums in London for the Stock Brokers.

ADVANCE IN SECURITIES

PRESIDENT EXPECTED TO RE-ASSURE WALL STREET TODAY.

New York, Feb. 11.—The stock market was affected today by the impending holiday and the inclination of professional operators to close up contracts with a two days' closed interval to go through. Much was male in the speculation of the intention of President Taft to make a speech in New York some time tomorrow bearing on the administration's attitude toward the corporation problem. The intimation was broadly conveyed that this speech was to be of a reassuring character to capital and finance yesterday. July finished unchanged and September a shade off from yesterday's close.

veyed that this speech was to be of a reassuring character to capital and finance in its statement of intentions.

Developments in the money market were calculated to stimulate an investment demand for securities. The growing abundance of banking resources in foreign markets induced expectation of a prolonger period of ease. One result was seen in the cabled reports that New York was again borrowing large sums in London, supposedly to be designed for employment in the stock market.

The international trade movement shows London still in a position to extend credits to New York, the exports of agricultural products from the United States for January having fallen more than \$22,000,000 in value below those of

than \$22,000,000 in value below those of January of last year, principally by rea-son of the heavy shrinkage in value of cotton exports. Discussion of supposed trade recession dropped out of sight in the presence of the upward movement of stocks. Rumors were renewed of progress in the

projected merger of the great copper producing interests.

ducing interests.

The announced stock dividend distribution by the Pullman company has been foreshadowed in the advance in the price of the shares recently.

A heavy contraction in the actual loan item of the banks reflected the stock market liquidation of the week. The actual cash item gave no clue to the unexplained discrepancy of that item last week, with the known movements of money by which some \$15,000,000 of bank cash apparently disappeared.

cash apparently disappeared.

Bonds were firm. Total sales, par value. \$2,658,600. United States 3s coupon and the 4s registered have advanced 1/4 and the 3s registered 1/2, while the 4s coupon declined 1/4 per cent in the bid price on call this week.

LOCAL SECURITIES

"Business and trade throughout the country are as a rule satisfactory," says John C. Cutler, ir., in his regular weekly review, "The rather irregular condition of the financial markets and the weakness occasionally displayed in securities causes some hesitation in trade. It is hardly expected now that there will be a boom this year, but there is no doubt the volume of business will be large. When such men as Roger W. Babson, the economist, says that there will be another financial panic due in 1912, and that he draws this conclusion from study and observation of the financial history of the last century, it ought to cause people to get out of debt as much as possible and be prepared for any stringency that might occur. But we ought to have a few more years of presperity.

"Locally, trade is about the same as usual at this season of the year. Some merchants complain and say, "The cold winter seems to be so long," while others say, "Oh, what is the difference! The great amount of snow stored in the mountains will give us more water, and makes the agricultural outlook brighter."

say. 'Oh, what is the difference: The great amount of show stored in the mountains will give us more water, and makes the agricultural outlook brighter.'

"Some of the local securities have been rather quiet, while large blocks of Utah-Idaho Sugar company preferred bave been thrown on the market and as quickly taken. The stock has varied in price from \$8.88 to \$8.94 per share, and closed at \$8.92. As high as \$3 was bid, for common.
